

Xtrafriq Tech Consult

Product Management & Technology Consulting Company

PRODUCT MANAGEMENT-LED TECHNOLOGY DELIVERY

We design, build and deliver digital products and technology systems that help organisations operate, grow and scale.

Based in Accra, Ghana, with remote delivery worldwide. We work with public-sector, development, enterprise and growth organisations that need production systems—not prototypes.

Capabilities

Product Strategy & Leadership

Discovery, roadmaps, OKRs and execution leadership that turns ideas into scalable products.

Project Management (Technology + AI)

End-to-end project leadership, tooling and automation to improve speed, cost and predictability.

Enterprise & Government Platforms

National-scale platforms for transport, logistics, finance and operations in regulated environments.

Mobile & Web App Development

Production-ready applications with strong UX, performance and maintainable architecture.

Cybersecurity & Cloud

Secure SDLC, threat modelling, cloud foundations, cost control and reliability practices.

Agile Delivery & Enablement

Sprints, QA gates, workflows and team enablement that increase delivery predictability.

Selected delivery

ISTC GHANA

Product leadership for a nationwide transport platform covering booking, fleet, terminal operations and finance dashboards.

GIZ

Digital skills and capacity-building programme—curriculum, workshops and a lightweight LMS; 200+ participants trained.

KTZ

Full-cycle product management for a consumer mobile app, from ideation to App Store launch (30K+ installs).

MYAFRIQUEMART & FARMERTORKS

End-to-end e-commerce and multi-vendor marketplace platforms, from concept through launch.
